

## **LAND ROVER PALM BEACH**

To whom it may concern,

Alan La Bergere and his crew at Monster Detailing have been fantastic to deal with. From the start Alan gave us a plan and laid out exactly the how and what that needed to be done. In the 90-day agreed timeframe they achieved the goals we set regarding the quality of the work we expected from our staff with an added bonus of bringing down our chemical cost considerably.

Alans professionalism was key to make this happen with dealing with a staff that had substantial tenure. While he has been here most of the employees think we hired him and his staff because of the care they have given our customers and the quality that they have demanded.

I would highly recommend Alan and Monster for anyone looking to start or improve their customers detail department.
